SPRING BREAK AT SPRINGFIELD PUBLIC LIBRARY

A Special Week of Programming for Elementary Aged Kids

Kids grades K-5 are invited to come and DIG IN to our special Spring Break events March 24-31. These events are generously funded by the Springfield Utility Board and are designed to encourage fun, creative learning during the school hiatus.

This year's theme is all about archeology, paleontology, and geology. Our programs feature guests from the Museum of Natural and Cultural History, a graduate student from the University of Oregon, the Thunderegg Rock Club, and local artist for Imagination International, Marianne Walker!

Finally, with this special week we are launching our brand-new, online reading program through Beanstack. Beanstack is described as "Fitbit for readers" and can help families to stay engaged and excited about learning with special quests, goals, and prizes. All of these programs are completely free and open to the public.
