7:30 Adjourn

Background:

The City of Springfield has embarked on a comprehensive update of the Glenwood Refinement Plan. This process includes visioning, feasibility analysis, infrastructure planning and design. The product of this effort will provide property owners, developers, and residents greater certainty regarding the desired form and character of future development, and will help the City attract and facilitate the development of harmonious land uses supported by a community vision.

The City has developed a Citizen Involvement Plan to ensure that meaningful public involvement is part of the planning process.
