City of Springfield, Oregon

Springfield is a family-friendly community where a healthy economy and numerous historical aspects of Oregon's past have blended into a vibrant place to call home. Springfield is adjacent to I-5 and nestled between two rivers. The McKenzie River is world-famous for fly fishing and summer steelhead. The Willamette River also boasts excellent fishing and is popular for whitewater rafting.

This Master Fees and Charges Schedule consolidates all City of Springfield ("City") fees and charges, adopted by City Council resolutions, for the various services that the City provides. It is scheduled to be updated semi-annually and reflects all fee resolutions passed by Council during the year.

Fee Variance and Waiver Statement

Based upon an unusual circumstance or event, past practices, demonstrated hardship, or public benefit, the City Manager is authorized to waive or decrease fees or charges in a particular matter, or establish a fee not yet authorized in this resolution. When a new fee is established by the City Manager, it may be incorporated into this resolution. It shall be communicated to Council in writing to allow opportunity for comment.

The request for a waiver or reduction may be in writing. If the City Manager or his designee agrees to said waiver or reduction, he/she may inform the City Council of the request and his/her decision in writing, except in minor matters.

The City of Springfield has three types of fees and charges, with different methodologies for changing them:

- Master Schedule of Fees and Charges Established by the Municipal Code
The Municipal Code provides the right for the City to establish a fee or charge against the cost of providing a particular service. If the specific amount of the fee itself is contained in the municipal code, it takes the passage of an **ordinance** by the Council to change the actual fee. Examples of fees that are included in this category are business license, sanitary and stormwater rates, technology fees, and SaniPac franchise fees.
- Master Schedule of Miscellaneous Fees and Charges Authorized within the Municipal Code, Development Code, or Fire Code
The Municipal, Development, and Fire Codes provide the right for the City to establish a fee or charge against the cost of providing a particular service. In these cases, the respective codes do not contain the specific amount of the fee, only the authorization to levy the fee. It then takes the passage of a **resolution** by the Council to change the actual fee. Examples of major fees included in this category are the City's planning fees, ambulance transport fees, system development charges, and hazardous material inspection and storage fees.

- Master Schedule of Fees and Charges Established by the Building Code

The Building Code provides the right for the City to establish a fee or charge against the cost of providing a particular service. In the Building Code, the specific amount of the fee is contained within the Code. In these cases, it takes the passage of an **ordinance** by the Council to change the actual fee. Prior to the passage by Council, any building fees that are regulated by the State Building Code must first be presented to the State and follow a specific public hearing notice schedule. Examples of major fees that are included in this category are the City's building permits, plumbing inspection fees, and electrical inspection fees.

Section 10: System Development Charges

The System Development Charges are annually increased by an inflationary rate on July 1 of each year.

The following fees shall be charged for the development activities of the City:

Calculating the SDC

The SDC charges for each development is calculated using the worksheet shown as Exhibit 2.

The Storm Sewer SDC is based on square feet of impervious surface area. The Sanitary Sewer SDC is based on drainage fixture units as defined by the April 2000 Oregon Amendments to the 1997 Uniform Plumbing Code. The Transportation SDC is based on average weekday trip generation rates as published in the latest edition of the Transportation Engineers (ITE) Trip Generation Manual. More detailed information on calculating the fees for each system is shown below:

Storm Drainage

The storm drainage SDC is paid by all new residential, commercial, and industrial development. The charge is based on the square footage of the impervious surface area of the development. Impervious surfaces typically consist of concrete, asphalt, and roofing. The cost per square foot of impervious surface area is \$0.633. In applying the SDC, the cost per square foot is applied to the amount of impervious surface area measured at the time the building permit is issued.

FORMULA: STORM DRAINAGE SDC = IMPERVIOUS SQUARE FEET x \$0.633/SQUARE FOOT

A 50% credit will be given for the portion of impervious area served by a drywell sized and constructed to City of Springfield Standard Construction Specifications. A SDC credit will also be given for peak ten-year runoff reduction based on documentation provided by the developer and approved by the City.

Sanitary Sewer-City

The charge is paid by all new commercial, industrial, and residential development. To calculate the impact of new development on the sanitary sewer system, the City uses the number of drainage fixture units (DFU) as the basis of the charge.

Residential rate increases to \$218.05 per DFU.

FORMULA: Residential City sanitary sewer SDC = number of DFU x \$218.05

Commercial/Industrial is \$218.05 per DFU.

FORMULA: Commercial/Industrial City sanitary sewer SDC = number of DFU x \$218.05

Transportation

This SDC is charged on new commercial, industrial, professional, and residential development or change of use. It helps support expansion of arterial and collector roads, traffic signals, and street lighting. The SDC is based on the trip rate of the specific type of development and the cost per trip. The cost per trip is \$340.38 for all use types. A new trip factor is applied to omit short pass-by trips, diverted trips, and other linked trips. Trip rates for developments are based on the current Institute for Transportation Engineers' (ITE's) Trip Generation Manual, or the developer can submit a trip generation study outlined and approved by the City of Springfield. A partial list of trip rates is in the Transportation Fee Schedule, Exhibit 3.

FORMULA: Number of Trips X Unit X \$340.38 X New Trip Factor

Sanitary Sewer (MWMC)

The Metropolitan Wastewater Management Commission (MWMC) Facility Equalization Charge is a reimbursement fee for the reserve capacity that was constructed to serve new growth. This fee is designed to reimburse the community for its equity in the treatment plant's reserve capacity. Newly developed properties, change of use, or other properties that are connecting to the wastewater treatment system for the first time will pay the equalization charge. New development receives credit for past bond payments on existing debt and for contributions to qualified offsite public improvements. See Exhibit 4, Attachments C. The Flow Estimation Units (FEU) is used for the MWMC Facility Equalization Charge.

Formula: NUMBER OF FEU x COST PER FEU + \$10 ADMIN. FEE

Administrative Cost

The SDC legislation allows the City to recover its costs for complying with the required changes. A five percent (5%) administrative fee will be added to cover the cost of developing the SDC, establishing accounting mechanisms and administering the ongoing program.

Residential SDC Payment Deferral Program

(SMC 3.412)(4) The purchaser of a home or multifamily dwelling may elect to finance system development charges over a period of 10 years, billed in equal semiannual installments, plus interest and fees.

Interest Rate –Unbonded Average City Earnings Rate plus 2%	
Interest Rate – Bonded	Bond Rate plus 1.5%
Deferral Administrative Fee	\$50.00
Installment Late Payment Fee	10% of Overdue Installment

Effective Date: April 1, 2016

Section 10: System Development Charges

Short-Term SDC Payment Deferral Program

(City Policy) Whenever the total SDC due for a Building Permit exceeds \$10,000, the applicant may elect to enter into a short-term SDC Deferral Agreement. The Agreement is in the form of a potential lien and must be signed prior to Building Permit issuance. The SDC Deferral Agreement allows the applicant to pay a minimum of \$10,000 toward the total SDC due prior to the City issuing the Building Permit. The balance of the SDC due must be paid in full prior to the City issuing a Certificate of Occupancy for the building.

Initial SDC Payment	\$10,000.00 at Building Permit Issuance
Final SDC Payment	Balance of SDC Due prior to Certificate of Occupancy

SDC Credit Certificate Administration Fees

(SMC 3.417) (1) In the event a credit authorized under section 3.416(2) is greater than the amount of the charge due, the City shall upon request of the developer, issue to the developer a certificate, documenting the amount of the credit in excess of the charge.

(2) Such certificate may be redeemed by the developer and applied to future charges for that type of capital improvement, provided such redemption shall occur not later than 10 years after the date of issuance of the certificate.

(3) Any developer issued a certificate shall pay to the City, at the time of issuance, and annually thereafter until such certificate is redeemed, an administrative fee fixed by resolution of the Council. Failure to timely pay such annual fee shall not invalidate a certificate, but no certificate shall be transferred or redeemed until all annual fees shall have been paid.

(4) The certificate may be redeemed in whole or in parts. If the certificate is redeemed in part, the City shall, upon delivery of the certificate, issue a new certificate documenting the remaining credit available. Such reissued certificate shall expire 10 years after the date of the original certificate, and shall be considered a new certificate for purposes of the administrative fee.

(5) Such certificate may be transferred, in whole or in part, to another person, provided, however, that no such transfer shall be effective until the holder of the certificate shall surrender the same and a new certificate or certificates issued.

Initial SDC Credit Certificate Fee	\$250.00
Annual Certificate Maintenance Fee	\$250.00

Effective Date: April 1, 2016
