

Fish-Friendly Car Wash Kits

Available to non-profit groups **FREE** of charge

When you hold car washes in a parking lot or paved area, the soapy, grimy water goes down a storm drain and directly into our community's rivers and streams without treatment. The soap, dirt, and oil that is in the water can be harmful to fish and other aquatic life.

The City of Springfield has Fish-Friendly Car Wash Kits available, for **FREE**, that will keep the soapy water from your fundraiser out of local waterways. Check out our kit and we'll help you set it up at your site!

Protect our local waterways
Multiple kits available
Easy to use
