Proposed Amendments to Prior Year One Year Action Plans for
Community Development Block Grant (CDBG) Funds
30-Day Notice of Public Hearing and Written Comment Period

The City of Springfield is proposing a substantial amendment to a prior year Action Plan to reallocate federal Community Development Block Grant (CDBG) funds received as follows:

Prior Year Action Plan	Amount Funded	Prior Year Allocated Strategy	Proposed Amendment
FY 2017/18	\$50,000	Provide down-payment assistance to low-income homeowners	Reallocate funds to Rehabilitate existing housing stock affordable to low-income persons.

Staff estimate Springfield's Home Repair Program will run out of funds mid-June, creating a funding gap until August when FY20 funds will be made available. Meanwhile, the City's down payment assistance program has not been expending funds as planned, and has a surplus of allocated funding from prior years. It is estimated this amendment would leave enough funds for the down payment assistance program to continue in FY2019-20, and allow the Home Repair Program to operate in June, July and August.
