SHOCKING SCIENCE EXPERIMENTS AT THE SPRINGFIELD LIBRARY

*Fun science experiments at the library on
"No-School Friday"*

Children are invited to come to the Springfield Public Library Friday, December 4, from 2:30-4:00pm, which is a day the Springfield schools will be closed. On that no-school Friday, the Science Factory will present an interactive program, "Shocking Science Experiments", for grades kindergarten through 5th at the Springfield library. The Science Factory will bring their Van de Graaff static electricity generator to demonstrate electricity and magnetism and will help children perform simple experiments. The program is free and is for grades k -5th.

What: Shocking Science Experiments

When: Friday, December 4, 2:30-4:00 pm

Where: Library Meeting Room, Springfield Public Library
