## **~ MEDIA ADVISORY ~**

### **RESULTS OF 2010 COMMUNITY SURVEY NOW ONLINE**

Earlier this summer, the City of Springfield commissioned a telephone survey of the community to check perceptions on the importance of sixteen community values and city services. People were asked about what was important to them and how they felt the City was performing on those things.

Safe Neighborhoods ranked most important followed closely by Quality Education and a Healthy Environment. We also asked questions about the jail, fire merger and library services.

The full survey, conducted by Advanced Marketing Research, Inc. including a detailed analysis of the data collected, is now online at: <http://www.ci.springfield.or.us/>
