Springfield's Housing Strategy

Housing Values

Key

Findings

We want Springfield to be a family-friendly community for all people in every phase of life; whether it's just starting out with a new family, or downsizing to a smaller home. We need a diverse housing market that supports employment and families at every phase of life.

- Lack of available housing at all levels including: emergency shelter, transitional housing, income-qualified housing, market rate rentals, space in manufactured home parks, and homes for sale.
 - Rental vacancy rates are low less than 1%.
 - Housing is expensive. 53% of renters and 36% of homeowners are cost-burdened, which means they are paying more than 30% of their income on housing and basic utilities.
